

Healthcare Performance Group

Cerner® Consulting Services

To support your goals for stronger performance and healthy returns on your Cerner investments, our services go far beyond Cerner implementation. We have deep expertise in all Cerner Solution areas, and we connect as your partner to integrate and optimize technology for increased efficiency, greater financial health, enhanced patient safety and ultimately, better health outcomes.

- Acute and Ambulatory Care
- Revenue Cycle and Supply Chain
- Project Leadership, Planning and Management
- Design and Workflow Optimization
- Training Domain Services
- 24/7 System Support

Supporting Your Cerner Implementation and Optimization Needs

Our Cerner Consulting Experts excel at planning and delivering a strategic, team-oriented approach to implementing Cerner clinical and financial systems.

Consulting Expertise

We combine our longstanding Cerner expertise with deep healthcare experience to ensure your Cerner applications fit your health system.

Support Services

We work collaboratively to provide solutions for your EHR-related challenges and maintenance needs, all for only a fraction of the cost of adding new full-time employees.

Assessment Services

We assess your current build and advise on workflow strategies and design edits to ensure optimal preparation for – and results from – the most current Cerner technology.
